Layout	10	/ 10
Use of Methods	20	/ 20
Variables	4	/ 5
Main Loop	10	/ 20
Validate Input	15	/ 20
Functionality	25	/ 25
<b>Total Marks</b>	<b>84</b>	

### Comments:

You could have made the weather station codes final

You have looped a fixed number of times

Good validation but variables should have been used instead of numbers

Your program is unnecessarily overly complicated

Overall, a very good effort, well done.
