

Information Systems Engineering (SET11106): Trimester 1: Session 2011-2012

Assessment 2: Pine Furniture Company (50% of Module)

Component	Comment	Weight	Mark
<p><i>Report</i></p> <p>Content:</p> <ul style="list-style-type: none"> • Is the evaluation realistic? <p>Presentation:</p> <ul style="list-style-type: none"> • Presented as report? • Error-free & grammatical? 	<p>Very detailed list of required extra work. Supporting letter well presented. It could perhaps have been a bit more evaluative, e.g. of the interface the good features included etc.</p>	10%	5
<p><i>E-R Model</i></p>	<p>Excellent - additions of lookups for various factors in customer and product tables. Additional tables for User Logins.</p>	5%	5
<p><i>Data Dictionary</i></p> <p>Appropriate:</p> <ul style="list-style-type: none"> • tables • fields • field names • field sizes • field types • keys • foreign keys 	<p>Well designed and presented (but didn't really need all the table properties).</p>	10%	8
<p><i>Database Functionality</i></p> <p>Minimum</p> <ul style="list-style-type: none"> • New/existing customer & product dialogues • Order recording • Search • Reports <p>Additional Features</p>	<p>Exceptionally good system that exceeds what could reasonably be expected in the timescale.</p> <p>This is close to a professional deliverable system. Many additional features implemented, export to Excel, emailing of reports. Complex and useful reporting etc.</p> <p>Excellent work throughout</p>	45%	45
<p><i>Database look and feel</i></p> <ul style="list-style-type: none"> • Overall impression • Consistency of forms • Appropriate style 	<p>A very clear, powerful and consistent interface that comes very close to a saleable product. Perhaps my only criticism is the complexity of some of the menu style forms which provide a bewildering array of user options.</p>	30%	27
<p>Overall</p>			92
